

VITRIFIED SHALE CONDITIONER

Athletic Field Soils & Related Turf Surfaces

Incorporating Utelite Vitrified Shale Conditioner into the soil profile creates a strong, stable root development zone with enhanced pore space for air, water and nutrients. An ideal soil profile will yield strong, healthy turf capable of supporting competitive play and provide a safe, secure playing surface for the athletes.

Utelite Vitrified Shale Conditioner promotes deep, healthy root growth by providing adequate drainage, improving moisture retention and increasing resistance to compaction. A turf zone amended with Utelite Vitrified Shale Conditioner will recover quicker from competitive play, have less down time and reduced damage from play after inclement weather, require less maintenance and preparation, provide a professional looking field with a safe, competitive playing surface.

Applications

- Golf Courses
- Soccer Fields
- Football Fields
- Baseball & Softball Fields
- Lacrosse Fields
- Athletic & Recreation Fields
- Parks

Benefits

- Provides Optimum Playing Surface
- Encourages Healthy Turf with Deep Roots
- Ensures Proper Drainage & Aeration
- Reduces Compaction, Wear & Tear
- Requires Less Maintenance
- Quickens Recovery after use
- Prevents Damage During Inclement Weather
- Lessens Down Time after Inclement Weather
- Encourages Water Conservation
